- c. **Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

- ☐ The participant is referred to another waiver that can accommodate the individual's needs.
☐ Additional services in excess of the individual cost limit may be authorized.

B-3: Number of Individuals Served (1 of 4)

- a. **Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a	
Waiver Year	Unduplicated Number of Participants
Year 1	2480

Year 2	2580
Year 3	2680
Year 4 (renewal only)	2780
Year 5 (renewal only)	2890

- b. **Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: *(select one)*:

- ☒ The waiver is not subject to a phase-in or a phase-out schedule.
- ☐ The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
- e. **Allocation of Waiver Capacity.**

Select one:

- ☒ Waiver capacity is allocated/managed on a statewide basis.
- ☐ Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

- f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

There is not a waitlist for this waiver. Any applicant who meets waiver eligibility criteria under 7 AAC 43.1010 (which includes the nursing facility level of care requirement) who agrees to receive care under this program may do so. If an individual meets all the eligibility criteria for an HCB waiver and there are no provider of services available the applicant will be offered options listed below:

1. Community placement in a licensed assisted living home or a licensed nursing facility until providers have been enrolled and are prepared to deliver the care,
2. If the applicant declines those options and chooses to stay at home, the individual may opt to receive community or grant funded services instead. If the applicant meets regular Medicaid income standards – the individual may receive regular Medicaid services such as PCA and home health care without being on a waiver. If an applicant is not competent to direct their own affairs, referrals are made for possible guardianship. Sometimes these individuals move to more urban (at least urban by Alaska standards) to receive care.
3. DSDS certification and licensing staff work with interested parties in a community to become enrolled to provide services.
4. The applicant may choose to refuse all State, grant and community services and stay at home with no home care at all.

Alaska is a large state with a total population of less than one million. HCB Waiver recipients live in 114 communities across the state. While some recipients have moved to larger hub centers to receive services when it is their choice, it is not uncommon for there to be only 1-3 people in a very small community receiving HCB waiver services. Each provider still meets certification standards and monitoring standards without compromising quality of care.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 4)

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance, a family allowance, and an amount for incurred expenses for medical or remedial care.

i. Allowance for the personal needs of the waiver participant

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. **Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

- i. **Minimum number of services.**

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

- ii. **Frequency of services.** The State requires (select one):

- ☒ The provision of waiver services at least monthly
- ☐ Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the State also requires a minimum frequency for the provision of waiver services other than monthly

(e.g., quarterly), specify the frequency:

- b. **Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (*select one*):

- ☒ Directly by the Medicaid agency
☐ By the operating agency specified in Appendix A
☐ By an entity under contract with the Medicaid agency.

Specify the entity:

- ☐ Other
 Specify:

- c. **Qualifications of Individuals Performing Initial Evaluation:** Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Registered nurse or medical social worker trained to the same standards as a nurse, licensed in the State of Alaska working for DSDS. DSDS staff RN makes the level of care decision.

- d. **Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

Nursing facility level of care is evaluated using the Consumer Assessment Tool, in accordance with 7 AAC 43.1030.

- e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

- ☐ The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
☒ A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

An applicant for admission to a nursing facility and the HCB Waiver must meet the same level of care standard. The Consumer Assessment Tool (CAT) collects the same information as the nursing facility LOC assessment instrument as well as information on the applicant's ability to function in home and community settings and the informal community supports available. All nursing facility and waiver level of care evaluations are made using the same criteria by licensed registered nurses or a medical social workers trained to the same standards, working within the same unit in DSDS. The reason more information is collected on the CAT is so a Plan of Care can be written without the need to do an additional assessment.

- f. **Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

Recipients are evaluated by a state licensed registered nurse or clinical social worker at least annually, using the Consumer Assessment Tool, which has been administered by a licensed registered nurse working for the State. Reevaluations are performed using the same assessment tool and qualified individuals to perform it as the initial evaluation. All level of care determinations are made by licensed registered nurses or clinical social workers working in DSDS.

- g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

- ☐ Every three months
- ☐ Every six months
- ☒ Every twelve months
- ☐ Other schedule

Specify the other schedule:

- h. **Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

- ☒ The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- ☐ The qualifications are different.

Specify the qualifications:

- i. **Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (*specify*):

DSDS uses a database to track reevaluations. Recipients' care coordinator and the state assessor are informed of reevaluation dates at least 60 days prior to the due dates to ensure timely completion of reevaluations. State staff monitors timelines at least monthly and follows up on reevaluations that are out outside of this time frame. There are no limitations as to when a care coordinator may request an amendment to a recipient's Plan of Care. They may be generated at any time there is a change in health, welfare or change in living situation.

Agencies providing services may also monitor evaluation timeliness. They are aware that prior authorizations are only issued for 12 months at a time and new authorizations cannot be issued without prior completion and state approval of a new assessment and new plan of care.

As part of the waiver quality management strategy, DSDS QA periodically reviews the timeliness of reevaluations to ensure quality standards are being met.

- j. **Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §74.53. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Evaluations and re-evaluations of level of care are maintained in the recipient's official files in the Anchorage or Juneau offices of the Division of Senior and Disabilities Services for a minimum of 3 years.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.

- a. **Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

During the period of time information is gathered to determine Medicaid and Waiver eligibility, all applicants are

informed by DSDS staff and care coordinators of feasible alternatives in community based grant programs, Medicare, and Tribal services as well as those available under HCB waiver programs.

As part of the initial application for waiver services, the individual completes the Client Rights Statement. The individual, parent or legal guardian initials a series of bullets outlining the rights of the individual, including the right to choose waiver or institutional services.

After a level of care evaluation has been approved by the DSDS, a plan of care is developed for the individual. Before the plan of care is authorized by the DSDS, it must be accompanied by a signed Client Choice of Services form, which informs the individual of their right to choose waiver or institutional services and requires them to positively select one or the other. A signed, completed Client Choice of Services form must be submitted with each plan of care or plan of care amendment.

- b. **Maintenance of Forms.** Per 45 CFR §74.53, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Signed Client Rights Statement and Client Choice of Services form are maintained in the recipient's official files in the Anchorage DSDS office or State Archives for a minimum of 3 years.

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

Equal access will be provided to people who are Limited English Proficient seeking waiver services. DHSS Division of Public Assistance performs eligibility functions for HCB Waivers. They hire bilingual staff, arrange for interpreters and arrange for translation of written eligibility related materials.

Care Coordinators, who perform the functions of care planning and monitoring waiver services for persons with Limited English Proficiency are either bilingual, arrange for interpreters to perform these functions in the recipient's language of choice.

The SMA arranges for translation of written program materials when necessary.

All applicants for Medicaid services are notified of the opportunity for reasonable accommodations in the Medicaid application, during the eligibility processes, and waiver determination of level of care process.

All case information in official State files is maintained in English.
